

**Wayne-Finger Lakes BOCES
School Library System
Cooperative Collection Development Grant Program**

The goal of this grant is to support the Wayne-Finger Lakes BOCES School Library System's Cooperative Collection Development Program. It has been designed to provide funding for individual school libraries to strengthen the overall breadth and depth of collection resources that support curricula and the New York State Learning Standards and that are available for sharing between member school libraries.

Grants will be awarded to fund projects that benefit all members of the school library system. **Only one application may be submitted from each school district per year.** Applications will be reviewed by a panel selected by the Council Chairperson, and will be judged using the attached rubric.

Software, hardware, and video resources are excluded. All items purchased must be made available for interlibrary loan and, although housed in the library receiving the grant, remain the property of the Wayne-Finger Lakes BOCES School Library System.

*****The School Library System will place all orders, pay all invoices and receive the books in our office.*****

“Purchased through CCD Grant 2006” will be placed in MARC tag 591b.

A bookplate will be placed in each book.

Grant recipients will be expected to:

1. Send completed, word processed, order forms with all necessary information including vendor address, state contract number, processing specifications and bar code ranges to the SLS office by May 6, 2005. Include coupons with order. We prefer that all titles are ordered from the same vendor.
2. Share these materials through interlibrary loan.
3. Share any support material prepared for use with collection being developed with other members of this system. (eg. lesson plans or teaching units)

All grants will be awarded at the discretion of the Cooperative Collection Development Committee and the School Library System Director.

It is not necessary to include a list of titles you wish to purchase with your application.
